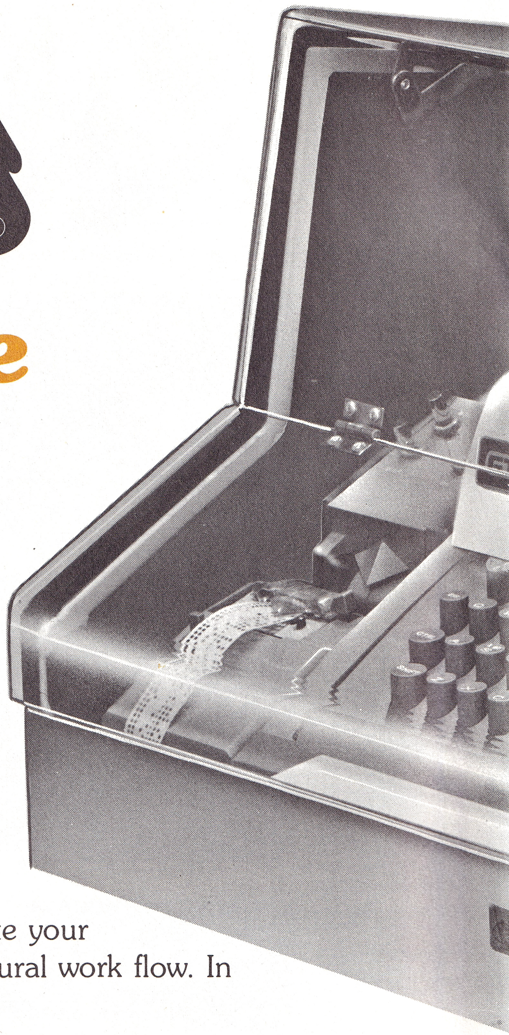
Van San QUIETIZERS®

Eliminate Excessive Office Machine NOISE



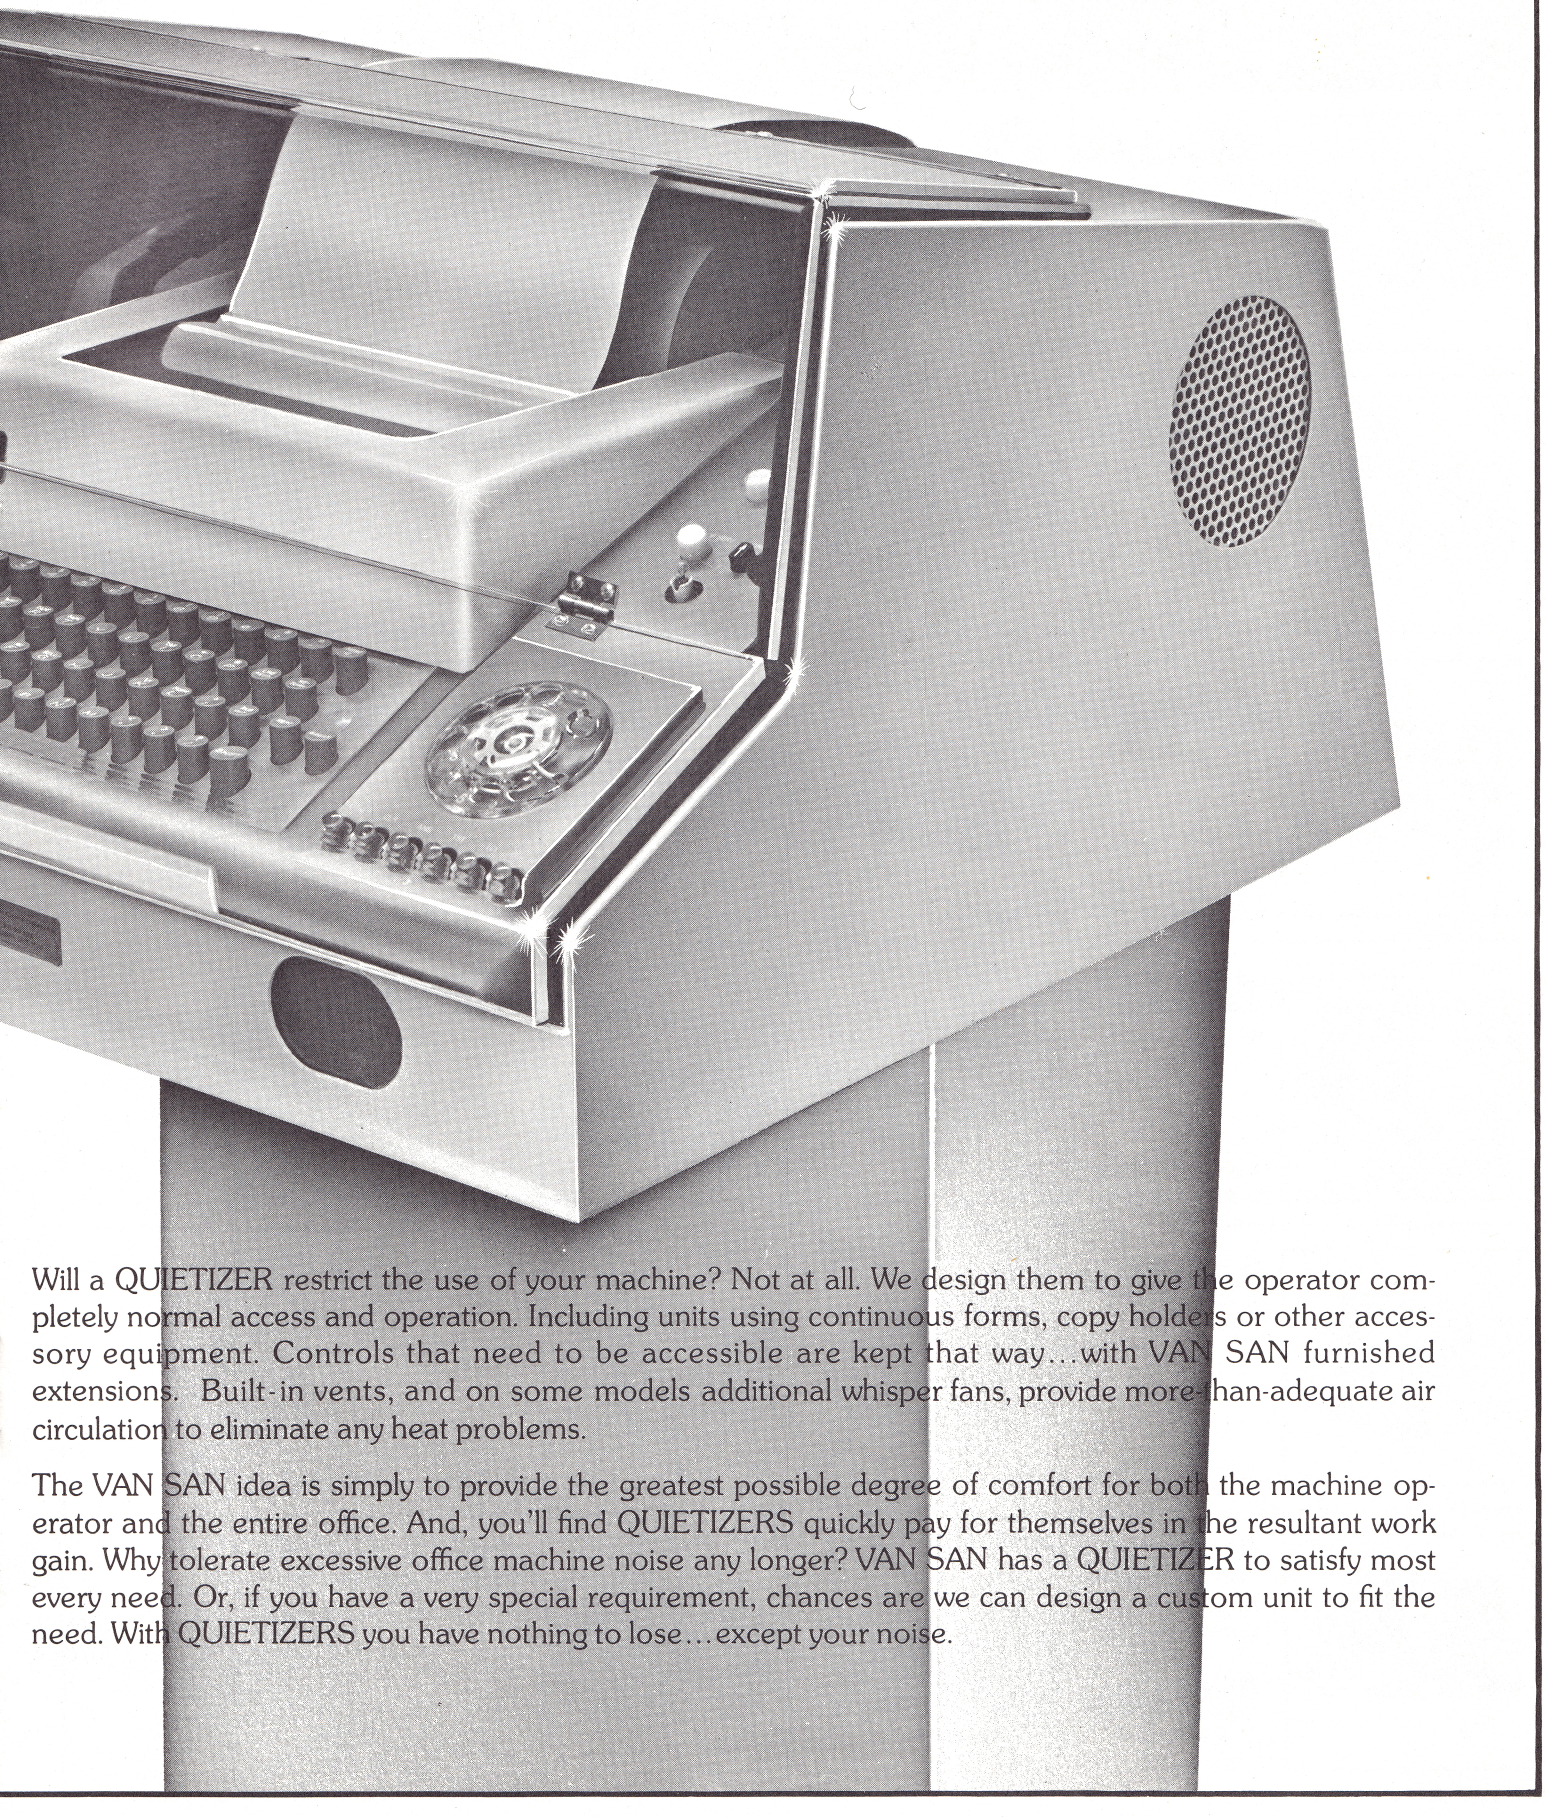
Office machines that make excessive noise do a lot of things for you. All bad. They produce annoying distractions. They raise overall background noise. They increase employee tensions. They reduce efficiency. They decrease productivity. They force you to locate your machines away from where you really need them. They interrupt natural work flow. In short, they reduce your overall profitability.

Until the introduction of QUIETIZERS, you had few choices. Either grit your teeth and try to live with the noise, or spend a lot of money in an attempt to isolate noise-producing machines... even to the extent of putting them in specially built rooms. QUIETIZERS have changed all that. VAN SAN now gives you the most modern, effective and low-cost method to dramatically reduce the noise levels of office machines and significantly improve the environment of your office. QUIETIZERS stop noise where it should be stopped... at the source. They trap noise at the machine and kill it... dead.

Every QUIETIZER is specifically designed to fit the contour and noise output of a particular model of office machine. Made to fit your exact problem. All QUIETIZER units are lightweight and rugged. Fabricated of metal and lined with scientifically shaped and treated acoustic material, they offer the ultimate in noise absorption effectiveness. The QUIETIZER enclosure is completed with a formed and hinged plexiglass lid which gives an unobstructed view of the machine at all times.

QUIETIZERS, beautifully finished to match or complement original equipment colors, are completely maintenance free. And, because they keep your machines dust free and clean, you save on equipment maintenance costs as well.

What about size? QUIETIZERS add virtually nothing to the overall size of your machine. As an added bonus, all QUIETIZERS are easily installed in minutes without fasteners, tools, or machine modifications. Just drop the QUIETIZER over your machine and be prepared... for quiet.



Will a QUIETIZER restrict the use of your machine? Not at all. We design them to give the operator completely normal access and operation. Including units using continuous forms, copy holders or other accessory equipment. Controls that need to be accessible are kept that way...with VAN SAN furnished extensions. Built-in vents, and on some models additional whisper fans, provide more-than-adequate air circulation to eliminate any heat problems.

The VAN SAN idea is simply to provide the greatest possible degree of comfort for both the machine operator and the entire office. And, you'll find QUIETIZERS quickly pay for themselves in the resultant work gain. Why tolerate excessive office machine noise any longer? VAN SAN has a QUIETIZER to satisfy most every need. Or, if you have a very special requirement, chances are we can design a custom unit to fit the need. With QUIETIZERS you have nothing to lose...except your noise.

QUIETIZERS® are the most effective, low-cost method of reducing office machine noise

VAN SAN SALES POLICY GUARANTEE

VAN SAN GUARANTEES that a QUIETIZER will reduce the noise level of your machine to your satisfaction. Upon receipt of your order, we will ship and invoice with terms as shown. If, within the discount period, you are not completely satisfied, we ask that the unit be repacked in the original carton and returned via the same method as received.

VAN SAN PRODUCT GUARANTEE

VAN SAN GUARANTEES the QUIETIZER to be free from defects in workmanship and materials under normal and proper use and service for the uses and purposes for which it is designed, and agrees to repair or replace, without charge, all parts thereof showing such defects which are authorized in writing to be returned for inspection to the company's factory, within a period of ninety (90) days from date of sale to original end purchaser, provided such inspection discloses to the satisfaction of the company that the defects are as claimed, and provided also that the equipment has in no way been altered, repaired by unauthorized service personnel, subjected to misuse, negligence or accident.
